Work Experiences

Game Design Teacher Assistant   Aug 2022 - Dec 2022

Messiah University

1. Created Unity related resources for the Intro to Game Design course such as basic raycasting and click to move function.

2. Assisted the professor in providing technical support for students inside and outside the classroom.

3. Playtested game projects and provided feedbacks to the students.

Cyber Security Assistant Intern   May 2022 - Aug 2022

Messiah University

1. Developed the frontend of an intrusion detection website utilizing HTML, CSS and JavaScript.

2. Assisted the director in identifying and solving potential and actual security problems; recognizing problems by identifying abnormalities; and reporting violations.

3. Assisted the director in implementing security improvements by assessing the current situation; evaluating trends; anticipating requirements.

4. Determined development requirements needed to identify threats.

5. Developed backend functions that help manages the intrusion data in the form of tables.
